Creating Youth Vocabulary

Available topics (underline yours):

1. Nightlife
2. Small talk
3. Shopping
4. Ice-breaking / being funny
5. or your own topic/field

Task: Within your group (up to 6 people; each from different countries) create a vocabulary for youth on your given topic. It should include the most useful basic phrases (at least 12) while conversing on that topic. Each of the phrases will have to be translated into the main languages of the 6 participating countries.

Additionally, one or more group member(s) will have to be responsible for finding the perfect picture of a .GIF for the listed phrase.

We are going to include these vocabularies to the e-booklet, which will be published. Therefore, please do the task not only with creativity but also responsibility.

Template (you may use your own – preferably on a larger sheet of paper; this is just an example):

Phrase	Ukrainian	Russian	Lithuania	Polish	Czech	Italian	Turkish	GIF / picture (link)
