Thus, your current task is to write: a short article (which should be suitable for press/media) and a caption for Facebook post on one of our initiatives (choose here: <https://activeyouth.lt/about-us/projects/?lang=en>).

- Article should not be longer than 1000 characters (with spaces). The heading must be inviting to read (click)
- Facebook caption should be catchy and 'invite' people to read/engage with the story (no longer than 140 characters (with spaces))

B (no need to do this if you've chosen A or C): we want to reach young people. One of the main channels for that is Instagram. Thus, your current task is to: check our Instagram and briefly describe how you would improve it.

- It shouldn't be longer than 1000 characters (with spaces)
- You can also (skip text and) use graphics, screenshots, etc.

C (no need to do this if you've chosen A or B): at Active Youth we write projects. Naturally, they need to be written in an understandable way. Hence, your current task is to: improve the text below.

- One condition is to make it shorter (i.e. stay well below 1500 characters (with spaces))
- Everything can be changed, but the main idea must stay the same

Text to improve: There is a great need for a good-quality sexuality education due to a fact that during the past years numerous technical and social developments have accorded. Sexual education is important because there is an increasing spread of STIs, teenage pregnancies, sexual abuse, but most importantly the sexual behavior and attitudes towards sexuality are rapidly changing. In addition, there is a wide spread of internet and media report, which can actually distort a perception of sexuality. According to WHO (2010) Sexuality education in Europe is defined as a 'holistic sexuality education' which tries to tackle different angles of young persons' perception on sexuality. It includes physical and emotional well-being, respect for yourself and others, cognitive, interactive aspects as well as learning about sexual orientation, gender identity and relationships. Additionally, Sexuality education is a human right and every young person should have an access to the information. "Formalized sexuality education, as opposed to peer education and extracurricular activities, is well placed to reach a majority of young people" (WHO 2010). For those reasons Sexuality education needs to be presented to the youth so it will give them the right tools to live healthy and satisfying life. 6 EU project organizations has joined with different background on the topic. Some of the countries give a lot of meaning on sexual education, others a bit less or even none. The project aim is to enhance their ability to make conscious decisions about their sexuality and relationships, as well as their well-being and health. Believing that this information can reach youth and formulate their own opinion, a training course on sexuality education will be held in Lithuania involving 36 participants.
